JANUARY 30 – FEBRUARY 1, 2019

*The Next Big Challenge
for Health Care Liability Captives*

Hugh Rosenbaum
In Conversation With:

Robert Hanscom
VP, Business Analytics
Coverys

Michael Maglaras
Principal
Michael Maglaras & Company

The Next Big Challenge for Health Care Liability Captives

Today we'll have a conversation about:

- *Big data...where it resides, how to capture it, and why it matters*
- *The re-invention of health care liability captives...it's not the same old annual meeting*
- *The new underwriting challenges...the not-so-subtle shift from clinical to social risk*
- *Employing physicians...what it means to captives and what it means to managing care*

The Next Big Challenge for Health Care Liability Captives

Today we'll have a conversation about (cont'd):

- The “forever” soft market...*keeping captives relevant*
- It's just about claims...*translating success and failure to clinical excellence*
- Turning the tables...*what health care liability captives can teach the commercial market*

*The Next Big Challenge
for Health Care Liability Captives*

Big data...

where it resides, how to capture it, and why it matters

*The Next Big Challenge
for Health Care Liability Captives*

The re-invention of health care liability captives...
it's not the same old annual meeting

*The Next Big Challenge
for Health Care Liability Captives*

The new underwriting challenges...
the not-so-subtle shift from clinical to social risk

*The Next Big Challenge
for Health Care Liability Captives*

Employing physicians...

what it means to captives and what it means to managing care

*The Next Big Challenge
for Health Care Liability Captives*

The “forever” soft market...
keeping captives relevant

*The Next Big Challenge
for Health Care Liability Captives*

It's just about claims...

translating success and failure to clinical excellence

*The Next Big Challenge
for Health Care Liability Captives*

Turning the tables...

what health care liability captives can teach the commercial market
